Complete Akrapovic racing exhaust system for track use made entirely from titanium with oval muffler in carbon. The cylinder head mating flanges are machined from solid billet aluminium while the silencer mounting brackets are in carbon fibre. The whole system weighs less than 5 kg and delivers a healthy increase in torque above 4,500 rpm, which is particularly noticeable from 4,500 to 8,000 rpm, significantly improving acceleration out of turns. Includes dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust. Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R mapping limits torque in the first three gears. For track use only.

AKRAPOVIC COMPLETE RACING EXHAUST

cod. 2S000556
EVO 1 - CARBON
Complete Akrapovic racing exhaust system for track use made entirely from Titanium with oval muffler in carbon. AKRAPOVIC COMPLETE RACING EXHAUST

cod. 2S001051
Carbon for track use only (without catalyst)

cod. 2S001050
Titanium - Euro 4 - approved road use

AKRAPOVIC SLIP-ON EXHAUST KIT WITH RACE TUBE INCLUDED

cod. 25001051
CARBON

cod. 25001050
TITANIUM
The kit is made up of a hexagonal silencer made of either Carbon fiber or Titanium. The 2S001051 in carbon has a removable Db-killer with catalyst-free racing collar. The 2S001050 Titanium exhaust is homologated according to Euro4 cap. 5 and 9 (emissions and noise) and can be freely used on the road without modifications to carburetion parameters. Both exhausts are mounted onto the down pipes of the standard exhaust and attach to the bike with a special clamp included in the kit. Also available, sold separately: an aluminum bracket (896180) or carbon bracket (606314M) which fasten the exhausts onto the bike by removing the passenger footrests.

APRILIA RACING accessory: intended solely for motorcycles used on circuits closed to public traffic and may not be used for any other purpose.

APRILIA RACING accessory: intended solely for motorcycles used on circuits closed to public traffic and may not be used for any other purpose.
RSV4 RR/RF

ECU RACING KIT

cod. CM081707

Dedicated engine control unit for track use, pre-programmed with racing ECU mappings. For use on bikes fitted with aftermarket exhaust systems (complete systems or slip-on muffler) NOT supplied by Aprilia. Recommended for use in combination with exhausts with no catalytic converter, with or without Db-killer. Dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust. Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R ECU mapping limits torque in the first three gears. After installation of ECU by an authorised Aprilia service centre, later updates may be downloaded and installed. For track use only.

ALUMINIUM BRACKET KIT

cod. 606314M CARBON

Carbon fibre silencer mounting bracket. For track use only.

cod. 896180 ALUMINIUM

Aluminium silencer mounting bracket. For track use only.

STEERING DAMPER

cod. 806848M ÖHLINS

Öhlins steering damper for maximum performance on the road with true racing looks. Standard on RF model.

cod. 806822M ÖHLINS NIX FORK

Öhlins steering damper for maximum performance on the road with true racing looks. Standard on RF version.

REAR SHOCK ABSORBER

cod. 606621M ÖHLINS TTX36 ADVANCE

Made specifically for RSV4. Fully adjustable. Head and body made fully of aluminum. The “advanced” version contains a dual link kit that maximizes the performance of the rear cushion. 606621M - standard on RF model.

cod. 894912 ÖHLINS TTX36

High performance on the road and track with a racing look and feeling. Fully adjustable in compression, extension and pre-load. Standard on RF version.

FRONT FORK KIT

cod. 806621M ÖHLINS NIX FORK

Öhlins steering damper for maximum performance on the road with true racing looks. Standard on RF model.

cod. 806622M ÖHLINS NIX FORK

Öhlins steering damper for maximum performance on the road with true racing looks. Standard on RF version.
RSV4 RR/RF

In billet aluminium. Lightweight with anodized black finish. For track use only.

**LEVERS RACING KIT**
- RACING CLUTCH LEVER
- RACING BRAKE LEVER

**REVERSE GEAR LEVER RACING KIT**
- cod. 25001040 ALUMINIUM

Mechanical element that reverses the shift gears mode, in order to have a better driving performance on the exit of the turn when racing on tracks.
RSV4 RR/RF

FRONT MUDGUARD KIT

<table>
<thead>
<tr>
<th>Code</th>

</thead>
<tbody>
<tr>
<td>895394</td>
<td>CARBON</td>
<td></td>
</tr>
<tr>
<td>896184</td>
<td>CARBON - USA VERSION</td>
<td></td>
</tr>
</tbody>
</table>

Component made from polished carbon fibre (with matte finish). Fits onto the standard swingarm for sportier looks evocative of the Factory version.

HEEL GUARD KIT

<table>
<thead>
<tr>
<th>Code</th>
<th>Material</th>
</tr>
</thead>
<tbody>
<tr>
<td>895319</td>
<td>CARBON</td>
</tr>
</tbody>
</table>

In 200g carbon fibre. Less weight and sportier looks. Also compatible with optional adjustable footpeg.

CARBON SIDE FAIRINGS KIT

<table>
<thead>
<tr>

<tr>
<td>895395</td>
<td>CARBON</td>
</tr>
</tbody>
</table>

Component made from polished carbon fibre (with matte finish). Fits onto the standard swingarm for sportier looks evocative of the RF version. Weight saving. Homologated for road use.
RSV4 RR/RF

BLACK FORGED ALUMINIUM WHEEL RIMS

Made from forged aluminium alloy. Engineered using advanced simulation and modeling tools such as FEM analysis, these wheel rims offer a weight saving over standard cast components while still ensuring unrivalled robustness. The resulting reduction in gyroscopic effect and unsprung weight translates to unparalleled responsiveness and agility.

LICENSE PLATE HOLE CAP KIT

In laser-cut aluminium. With laser-cut logos. Permits removal of license plate for track use. For track use only.

ADJUSTABLE LICENSE PLATE MOUNTING KIT

In laser-cut steel. With white LED license plate light. Gives the bike a sleeker and sportier look. For track use only.
RSV4 RR/RF

**CAP KIT FOR MIRROR MOUNT HOLES**

cod. 895320 POLYETHYLENE

In polyethylene. With laser-cut logos. Permits removal of mirrors for track use. For track use only.

**HANDLEBAR COUNTERWEIGHT KIT**

cod. 895326 ALUMINIUM

In-billet aluminium. With black nylon cap and laser-cut logos. Design with concealed fastener screw.

**CRASH PADS KIT**

cod. 25000728

Machined from solid nylon. Mountings in billet aluminium. Distinctive triangular design.

Cap Kit for Mirror Mount Holes

Handlebar Counterweight Kit

Crash Pads Kit
In technical fabric with carbon effect inserts. With fasteners for small and large tank bags. Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds. Features a hole for refueling without removing the cover. With contoured electrostatic tank protector.

**TANK COVER**

**TECHNICAL FABRIC**

**cod. B046054**

**cod. 2B002460**

**cod. 606652M**

**cod. 606522M**
